In this solitude of current times, I got a new friend who I ignored , Nature' could heal the wounds of this time. Morning sunrise giving me hope and at the day end this sunset with the sweet, 'see you again', made me fell in love with them all the time.

Lockdown at Male' City...

A rainy day from the lockdown days at capital city of Maldives. Fishermen are not allowed to enter the city. But allowed to sell fish straight from the fishing vessel.

Sunrises and with it had risen new hope, we just have to be optimistic and strong enough to fight through it. Because when it ends we have survived another day and yet prepare ourselves for the next. 'Hope' is all that keeps us all going. Never lose it.
